The Complete Finance Course for Non-Financial Professionals

Ref.: 36319_23799 **Date:** 22 - 26 Feb 2027 **Location:** Dubai **Fees:** 4500 **Euro**

Course Overview:

The course is designed to bridge the gap between complex financial concepts and practical, everyday business applications. It empowers non-financial professionals by simplifying the intricacies of accounting and finance. The course offers a hands-on approach to understanding financial statements, financial planning, and financial analysis. Participants will gain confidence in their ability to contribute to their organization's financial health by delving into real-world scenarios and practical examples. The course demystifies topics such as the accounting equation, financial statements, financial planning techniques, and capital budget decisions, making it accessible and valuable for professionals from various non-financial backgrounds. Whether you're looking to enhance your decision-making skills, understand the financial implications of your work, or simply gain a stronger grasp of financial concepts, this course is your gateway to financial fluency in the business world.

Target Audience:

- Non-financial managers and professionals
- Administrative assistants seeking to enhance financial literacy
- Project managers needing a better understanding of financial planning
- Entrepreneurs and small business owners
- Professionals transitioning into roles requiring financial oversight

Targeted Organizational Departments:

- Operations
- Marketing
- Human Resources
- Project Management
- Customer Service

Targeted Industries:

- Healthcare
- Education
- Government
- Retail
- Manufacturing

Course Offerings:

By the end of this course, participants will be able to:

- Understand the main accounting equation and fundamental accounting principles.
- Prepare key financial statements, including the income statement, balance sheet, and cash flow statement.
- Analyze financial statements using a structured framework.
- Differentiate between financial accounting and management accounting.
- Apply financial planning and analysis techniques to real-world business scenarios.
- Prepare operating budgets and make informed capital budget decisions.
- Utilize financial analysis to support decision-making.
- Understand the five main accounts in financial statements and their significance.

Training Methodology:

This course utilizes a combination of interactive and practical learning approaches to ensure a complete understanding of accounting and finance principles. Participants will take part in case studies that replicate real-world business scenarios, allowing them to apply their knowledge in a secure learning environment. Group work and interactive sessions promote peer learning and collaboration, fostering a deeper grasp of the material. The course also features reflective sessions for consolidating learning and feedback sessions to offer personalized guidance and improvement. Through these diverse methodologies, the course ensures that participants not only grasp theoretical concepts but also acquire practical skills that they can immediately apply in their professional roles.

Course Toolbox:

- Course handbook covering essential accounting and finance concepts.
- Templates for financial statements.
- Case studies for hands-on practice.

- **Topic 3:** Techniques for financial control and decision-making.
- **Topic 4:** Making capital budget decisions.
- **Reflection & Review:** Recap, final Q&A session, and course wrap-up.

How This Course is Different from Other Accounting and Finance Courses:

The course stands out because it focuses on practical application tailored specifically for non-financial professionals. Unlike traditional finance courses that may overwhelm with technical jargon, this course simplifies complex concepts, making them accessible and relevant to those without a financial background. The course integrates real-world case studies, allowing participants to see the direct impact of financial decisions in various business contexts. This hands-on, interactive approach enhances learning and ensures that participants can apply their newfound skills immediately in their roles. Additionally, the course offers personalized feedback and continuous support through online resources, making it a complete and unique offering in the field of finance training.
