FAQ:

What specific qualifications or prerequisites are needed for participants before enrolling in the course?

No prior qualifications are required. However, experience in advocacy, M&E, or public policy will help participants gain more from the course.

How long is each day's session, and is there a total number of hours required for the entire course?

Each day includes 4 to 5 hours of instruction, totaling approximately 25 hours over 5 days, including group activities, case studies, and expert facilitation.

Why is contribution analysis more suitable than traditional evaluation methods in advocacy?

Advocacy initiatives operate in dynamic contexts with multiple actors and unpredictable outcomes. Contribution analysis allows organizations to show plausible links between actions and results without requiring direct causality, which is often impossible in complex policy environments.

How This Course is Different from Other Strategic Advocacy Courses:

What sets the Strategic Advocacy & Policy Impact Evaluation Training Course apart is its exclusive foundation in practical evaluation science and real-world policy influence models. Unlike theory-heavy courses, this training emphasises applied methods and tools such as outcome mapping, contribution analysis, and participatory evaluation approaches. Participants leave with not just knowledge, but an action plan and frameworks ready for implementation. The course bridges the gap between learning and doing, combining systems thinking in advocacy, strategic communications evaluation, and stakeholder-centred approaches into a cohesive learning experience.
